

Membership Benefits

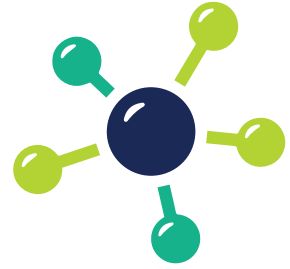

We've Got Your Back!

Chamber membership is not like a gym membership. You don't have to do anything, because on any given day we're working hard, advocating with local government representing business interests!

Youth & Education

Giving back is important to our members! That's why we created the Chamber Foundation. The Foundation is the bridge between the world of learning and the world of work and has 3 pillars: youth education, community leadership and small business development. Talk to Member Services to learn how you can get involved!

Networking Events

It's not just who you know, it's who others know. We host 3 networking events every month: Thurston Young Professionals, Business After Hours (all free), and Forum (low cost, includes lunch).

Reputation is Everything

Research shows that being active in a local chamber of commerce is an effective business strategy. 2/3 of consumers believe that such companies use good business practices, are reputable, care about their customers, and are involved in the community.

Increase Visibility

We have free and low-cost ways to amplify your business. Learn more by contacting our Member Services team today about sponsoring an upcoming event, posting your press release to our website, tabling at Forum or advertising in the VOICE magazine, in a newsletter or on our website.

Workforce Development

Talent retention, succession planning and recruiting new talent are important for business success, and that's where the workforce development arm of the Chamber can help you meet your human resources needs.
